Medigraphy Healthcare

Connected Health Kits

OUR APPROACH

An affordable virtual care solution that would allow care providers in remote and underserved areas to perform a wide range of basic diagnostics for patients. This provides the tools to gather and forward patient information. This real time information enables the care provider to take better informed decisions and thus results in superior prognosis of the patients.

Medigraphy-iLab (Cardiac KIT)

Cardiac Kit

Devices* (Connected Medical Devices)	One Time Device Cost Including Customised Briefcase & One Year Annual Subscription	Monthly Software Subscription From 2 nd Years Onwards

The advertisement features the Medigraphy logo at the top left. The main title is "Smart Cardiac Kit" in blue and red. Below it, the text reads "Get real-time clinical parameters like ECG, lipid profile and more". Three bullet points are listed: "Instant reports", "Portable devices for camps/clinics", and "Clinical data insights". The background shows a person holding a red heart with a white ECG line. At the bottom, there is a collection of medical devices including a laptop displaying a dashboard, a smartphone, a blood pressure monitor, a pulse oximeter, and a carrying case labeled "Cardiac Health Kit".
